

## ALLOCATION MANAGER: Enterprise Financials

### What is Allocation Manager?

**Signature Series' Allocation Manager** is designed to eliminate the need to individually create and maintain fixed allocation accounts within Microsoft Dynamics GP by automating the process. This product is beneficial to organizations having a large volume of allocation accounts and associated break-downs.

### Who would benefit from this product?

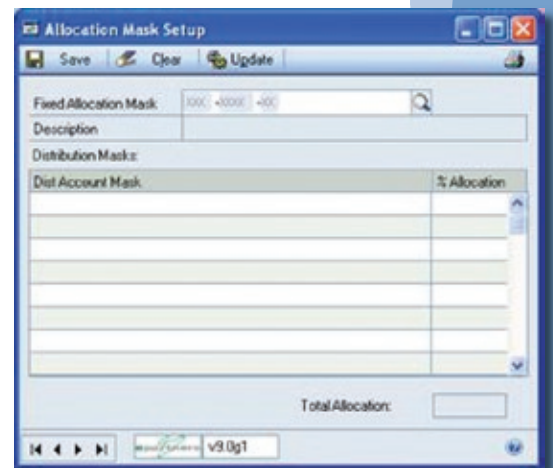

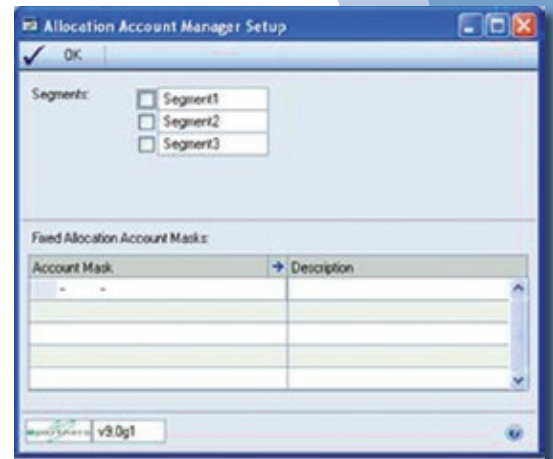

Customers who would benefit from **Allocation Manager** would be those that are, or would be, using Microsoft Dynamics GP with a need to streamline the creation and maintenance of their fixed allocation accounts.

### How would the customer benefit?

**Allocation Manager** would be beneficial to those using it because it simplifies the process of creating and maintaining fixed allocation accounts, saving both time and money.

### What other software must be installed in order to utilize this service?

Additional software necessary to benefit from **Allocation Manager** would include Microsoft Dynamics GP version 9.0 or greater.
