

Signature Series Product Information

PAYROLL EXTENSIONS HR & Payroll

Signature Series' **Payroll Extensions** contains several features requested by our customers to enhance their payroll systems. Read on to learn more!

Master Paycode	Child Paycode	% Markup	Markup Amount
HOURL	OVER	1.50	\$0.00
SALY	SICK	0.00	\$2.00
		0.00	\$0.00

Payroll Extensions Setup

Two features exist. When Use Unique Position Codes is active, a validation takes place within Employee Maintenance window when a position code assignment changes to determine if the code is already assigned to another employee. Use Manage Pay Rates is a powerful feature for organizations needing to do percentage or dollar amount markups between associated pay codes.

Required Timesheets Setup

Allows designation of employees for which a timesheet is required. When the Payroll Build process runs, a validation takes place to determine if all of the employees contained in the required list have at least one payroll transaction line on file. In the event there are any employees missing, the user is alerted and prompted to print the missing timesheet report.

Employee ID	Last Name	First Name	Middle Name	Social Security Number	Timesheet Required
ADKE0001	Ackerman	Pilar		917-23-9833	<input checked="" type="checkbox"/>
