

FINANCIALS SOLUTIONS

OVERVIEW

Looking for import capabilities with ASI's iMIS Association Management? Let ePartners' *SS' Financials Solutions' iMIS Import* meet this need.

Concerned with data consistency within financials? Need to simplify the transaction and records process? Interested in streamlining the cumbersome process of transferring data from one source to another? With features such as single transaction import, batch import, comma and space delimited data import, batch fixes for interrupted/corrupted batches during processing, as well as quick viewing and editing options through the main purchasing transaction window, our *SS' Core Financials* solutions are sure to simplify the company's business transactions and enhance the functionality within the Great Plains user environment.

Also available within *SS' Financials Solutions* are several options to maintaining, organizing and streamlining pertinent information within multiple Dynamics GP Companies through our *SS' Enterprise Financials* offerings. These offerings allow the user the ability to integrate card information, to automatically post batches for companies affected by intercompany transactions, to streamline the approach in creating and maintaining fixed allocation accounts, while also offering the quick viewing and editing options through the main purchasing transaction window, each saving time and money for the company benefiting from it.

With so many offerings available through *SS' Financials Solutions* companies will have the opportunity to update records effectively and efficiently saving both time and money while also simplifying the business process.
